Introduction

„Genial Topics Geografie“ ist ein fächerübergreifendes Arbeitsprogramm, das bestimmte geografischen Themen für den Englischunterricht anbietet und die Schüler zum selbstständigen Erarbeiten eines Themas in englischer Sprache anregt.

Interessante Inhalte und zusätzliches Bildmaterial helfen die Texte besser und leichter zu verstehen.

Viele differenzierte Arbeitsaufgaben (Puzzles, Rätsel) tragen zur Festigung der neuen Vokabeln bei, die Selbstkontrolle der einzelnen Aufgaben ermöglicht den Schülern das Lerntempo selbst zu bestimmen.

"Genial Topics Geography -Jobs" is an exciting activity book in which your students learn about different jobs.

Activities like puzzles, and games will help them to learn a lot about how to find the right career.

"Genial GW-Topics" can also be used in open learning lessons.

I wish you and your students lots of fun using Topics "Jobs".

Jobs and careers

The most important thing in choosing a career is to find one that is right for you. However, before you make the choice you have to learn a lot about yourself. The job needs to fit well with your interests and personality type but you can achieve whatever you want if you put your mind to it.

After school, it's possible to go straight to work or to stay on to go to college or university. A career adviser will talk to you about your future and will advise you as to what would be suitable for you. Then, of course, you will stand a better chance of being satisfied with your job and enjoying your work.

You will find some of the most common jobs below.

Match the jobs to the picture and fill in the missing words (draw lines).

A bus driver ...	a.) types letters in an office.
