Introduction

Genial Geografie Topics ist ein fächerübergreifendes Arbeitsprogramm, das bestimmte geografische Themen für den Englischunterricht anbietet und die Schüler zum selbstständigen Erarbeiten eines geografischen Themas in englischer Sprache anregt.

Viele differenzierte Arbeitsaufgaben, Puzzles, Rätsel, Lernspiele-Domino und Trimino tragen zur Festigung der Informationen und der neuen Vokabeln bei. Die Selbstkontrolle der einzelnen Aufgaben ermöglicht den Schülern das Lerntempo selbst zu bestimmen.

Ich wünsche Ihnen und Ihren Schülern viel Spaß mit „Genial Geografie Topics“.

Your students will find many possibilities to find out more about the country and people of Canada.

Puzzles, crosswords and games like dominoes and many more will help your students to learn easily about Canada's landscape, life and culture. All these activities can also be used in open learning.

I wish you and your students lots of fun using "Topics".

Irene Schwarz

Geography of Canada

Canada is a huge country located in the northern part of North America. It is the second largest country in the world. Only Russia is bigger.

The name Canada comes from the word "kanata" which means settlement or village in the language of the indigenous Iroquoians.

Its population (about 35 million people) is rather small compared to its geographic size.

Much of Canada is still wilderness, covered by forests. The highest mountain in Canada is Mount Logan (5,959m) in the Yukon Territory and Canada's longest river is the McKenzie River.

It is home to beavers, bears, moose, caribou, foxes, deer, and many arctic animals such as polar bears, seals and whales.

Most of Canada's population lives in Eastern Canada around the great lakes and St Lawrence River along its southern border.

The city of **Ottawa** is the nation's capital.

Parliament in Ottawa

Toronto

Toronto is the biggest city in Canada.

In the west of the country there are lots of **lakes, forests and mountains**.

The **Rocky Mountains** cover a major part of Western Canada, British Columbia, the Yukon Territory and the western part of Alberta.

There are **wide plains**, called **prairies**, across Central Canada where people grow wheat and raise cattle in the southern parts.

In the north there is the **freezing tundra** (permafrost) where ice, snow and glaciers dominate the landscape.

Canada shares borders with the United States of America which is actually the longest **international border** in the world. It is **8,891km long**.

Look at the map above and fill in the missing words.

1. The tallest mountain is the Yukon's Mount which is m tall.
2. The longest river system is the
3. The ocean that forms Canada's western border is the
4. The ocean that forms Canada's eastern border is the
5. The ocean that lies north of Canada is called the
6. The enormous Canadian Bay almost divides Canada in two.
7. The name of the country that borders Canada to the south is the
8. The southeastern Canadian gulf that opens to the Atlantic Ocean is called the
9. Canada has about two million lakes. The name of the long lake in South-Central Canada is
10. is the capital of Canada and is situated to the north west of Lake Ontario.
